

Message

Come and learn about environmental policy and technology in Japan

Dean, Prof. Masaki NAGAE

Faculty of Environmental Science was established in 1997 to solve emerging global and regional environmental problems. Our education and research aim is to train prospective students as environmental professionals in a transdisciplinary environment to serve for the benefit of the global society. We welcome all of you to Nagasaki University to share this excellent opportunity during this summer.

2023 participants' feedback

Great experiences in the Summer School.

Sonya from Mahidol University, Thailand

The Summer School Program is an eye-opening experience for me, this program allows me to make new friends from different countries, while also study under the professors during the internship period. This is one of the best academic events that I ever participated in my life. The three weeks internship period is the time of learning with the professors of my choosing in the field of study that I am interested in. And the result of the internship is fruitful, I have gained more new knowledge and learned about the topic and field that I am interested in, and this helped me in determining the path of my future.

A wonderful experience getting to know and working with everyone from different places.

Laura from Lancaster University, United Kingdom

It was a worthwhile experience working with students from Japan, Thailand, and Indonesia, and learning and experiencing the cultural differences and work styles etc. Interesting lectures, lab work and PBL topics to learn from in all aspects of environmental science and the different attitudes and problems faced by people from around the world. I thought some of the follow up in person lectures could have been more teaching focused, but the initial online lectures were all very interesting and to learn from a different perspective than I have been exposed to before. Overall, I really enjoyed the experience, and thought everyone involved were very friendly and created a nice environment. I feel like I have learnt a lot from it.

Participants of the Transdisciplinary Summer School on the Environment (AERRI 2023)

How to apply

Please contact International Exchange Office of your university. Students from universities holding MOU with Nagasaki University are waived from tuition and fees.

Participants are responsible for their cost of travel and accommodation.

Limited scholarships are available.

Enquiries

International Exchange Committee, Faculty of Environmental Science, Nagasaki University

1-14 Bunkyo-machi, Nagasaki-shi, Nagasaki 852-8521, Japan

HYFLEX INTERNATIONAL EXCHANGE PROGRAM Transdisciplinary Summer School on the Environment

Faculty of Environmental Science, Nagasaki University
"Asian Environmental Resilience Research Initiative 2024"
Asian Environmental Resilience Research Center (AERRC)

About Summer School

Transdisciplinary Summer School on the Environment provides unique opportunities for undergraduate and master course students who wish to acquire knowledge and skills on environmental management and science for environmental conservation. The HyFlex Summer School consists of International Environmental Expert Seminar, Problem-Based Learning, and Internship at the Faculty of Environmental Science, Nagasaki University, Japan or via online linking with your own home and partner universities.

International Environmental Expert Seminar (IEES) & Problem-Based Learning (PBL) on the environment

July 8– August 30, 2024

International Environmental Expert Seminar (IEES) provides multidisciplinary lectures with topics ranging from Japanese environmental management policies to the science and technology for the environmental issues. Problem-Based Learning (PBL) includes group discussions, local field trips, and group presentations on environmental problems of students' home countries. Students will receive 2 credits on the completion on the IEES and PBL.

Laboratory Internship & Young Researcher Training by Asian Environmental Resilience Research Center (AERRC)

July 23– August 19, 2024

Laboratory internship opportunities are hosted by our faculty members with expertise ranging from social science to natural science. Laboratory work includes analytical/green chemistry, toxicology, solid waste management, physiology, bioengineering, geology, phycology, conservation ecology, environmental law, economics, sociology, international relations, management and planning. Please visit our website (<http://www.env.nagasaki-u.ac.jp/english/members.html>) for available options.

AERRC provides training program for young researchers to promote transdisciplinary environmental research for SDGs.

July	8 Mon	9 Tue	10 Wed	11 Thu	12 Fri	13 Sat
1 st week (Online)	Orientation Opening remarks	First half of IEES (<i>on-demand classes of four key topics in environmental science</i>) Discovering the roots of industrial pollution in Japan (Dr. Yuuki TOMOZAWA) & Challenges for sustainable forest management (Dr. Masahiko OTA) Can you measure the weight of a molecule? (Dr. Yuji TAKAO) & Clouds and climate (Dr. Kazuaki KAWAMOTO)

IEES Lecturers in AERRI 2024

Transdisciplinary Summer School on the Environment (Asian Environmental Resilience Research Initiative 2024) International Environmental Expert Seminar

Assoc. Prof. Dr. Yuuki TOMOZAWA

Environmental Sociology Laboratory,
Department of Environmental Science,
Graduate School of Fisheries and Environmental Sciences,
Nagasaki University

“Discovering the roots of industrial pollution in Japan”

Japan's rapid modernization in the 19th and 20th centuries was built on a number of serious pollution incidents at home and abroad. This lecture will present the history of pollution in Japan and the experiences of people's struggle to overcome both pollution and social injustice.

Prof. Dr. Yuji TAKAO

Environmental Chemical Micro-analysis Laboratory,
Department of Environmental Science,
Graduate School of Fisheries and Environmental Sciences,
Nagasaki University

“Can you measure the weight of a molecule?”

In recent years, mass detectors have been widely used in environmental analysis. You will learn the principles of this detector and deepen your understanding of its advantages, disadvantages, and environmental applications.

Assoc. Prof. Dr. Masahiko OTA

Natural Resource Management Laboratory,
Department of Environmental Science,
Graduate School of Fisheries and Environmental Sciences,
Nagasaki University

“Challenges for sustainable forest management”

Managing forests sustainably requires a deeper understanding of institutional, economic, and social aspects. This lecture will elucidate the current status and challenges of forest management, with a particular focus on tropical Asia and Japan.

Prof. Dr. Kazuaki KAWAMOTO

Satellite Climatology Laboratory,
Department of Environmental Science,
Graduate School of Fisheries and Environmental Sciences,
Nagasaki University

“Clouds and climate”

Clouds occupy about 60% of the earth's surface and play a crucial role for formation of the climate via dynamical, hydrological and radiative processes. In this lecture, the relationship between clouds and climate will be described mainly by observed data.

Host Professors of Laboratory Internship in AERRI 2024

Laboratory information is as of 1st April 2024. Please check the latest information at our web page using the QR code.

Nagasaki University Area Map

About the Nagasaki City

Population

The population of Nagasaki city is about 410,000. 長崎市の人口は約41万人です。

Environment

A centralized city that has a mix of the ocean, mountains, and a downtown areas.
海・山・市街地が一つになったコンパクトな町です。

Cultural heritage

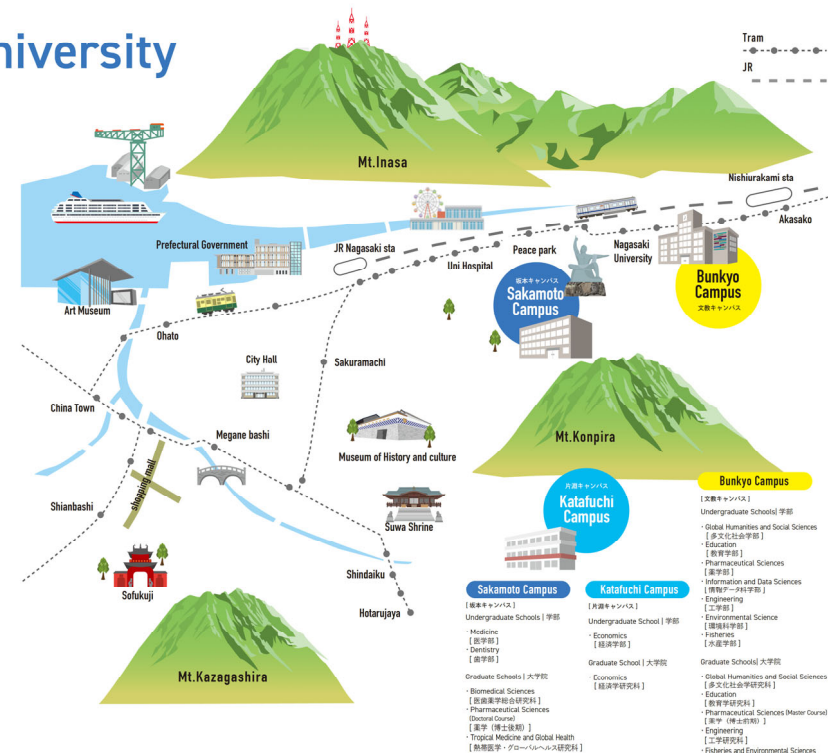

8 of the locations listed under UNESCO's "Sites of Japan's Meiji Industrial Revolution."
「明治日本の産業革命遺産」としてユネスコ世界遺産に登録された横断産業が長崎には8つあります。

History

Nagasaki city has a culture of its own, one that is a mixture of Western, Chinese and traditional Japanese culture.
長崎は西欧、中国、そして日本の文化が融合している歴史的な町です。

Traffic

The tram that will make your transportation at the city much easier.
高度電車や長崎市内を簡単に移動できます。

About Nagasaki 長崎について

Nagasaki is a very unique city where you can enjoy nature, historical sites and urban area at the same time. While you live in Nagasaki city, you can enjoy shopping, hiking, and going to beaches.
You don't want to miss the breathtaking night view of Nagasaki city that has been recognized as one of the "New Three Great Night Views of the World."

長崎は、自然と史跡、市街地を同時に楽しめるユニークな街です。市内に住みながら、ショッピングやハイキング、夏にはビーチを楽しむます。また、長崎は「新世界三大夜景」に選ばれた街でもあります。長崎の夜景は見逃しません。

Climate 気候

Enjoy the beauty of all four seasons in Nagasaki!

長崎では、日本独特のはっきりとした四季を楽しめます。

Season 四季	Climate 気候	What you can enjoy 特色
Spring 春 March to May 3-5月	About 20°C. Moderate, Comfortable weather. 約20度。暑くもなく寒くもなくちょうど良い季節。 約20度。暑くもなく寒くもなくちょうど良い季節。	Flower viewing, Hanami! 花見を楽しめます。
Summer 夏 June to August 6-8月	About 32°C. Hot and humid. Rainy season in July. 約32度。暑くて湿度が高いです。 7月は梅雨に入ります。	Beautiful beaches. 美しいビーチが多くあります。
Fall 秋 September to November 9-11月	About 23°C. Moderate, Comfortable weather. 約23度。暑くもなく寒くもなくちょうど良い季節。	A huge festival called Kunchi which Nagasaki resident are passionate about. 長崎市民が毎年心待ちにしている、長崎で一番大きな祭り、くんちがあります。
Winter 冬 December to February 12-2月	About 8°C. Very dry. 約8度。空気がとても乾燥します。	Occasionally snow flurries without heavy snow. 大雪にはなりません。たまに降る雪の美しさを楽しめます。
